Morning Seminar: Qualifying to Work in Secure Government Facilities

Working with DCC and the Department of National Defence:

Did you know... in order to bid on construction or maintenance service contracts, companies must register with the PWGSC Industrial Security Program. Companies can then be granted clearance for either DOS (Designated Organization Screening – Reliability) or FSC (Facility Security Clearance – Secret) – depending on the specific contracts on which they bid. This clearance is a requirement for ALL federal government contracts that have security requirements, and can take 4 to 12 months to receive.

Join Trevor Rogers, P. Eng, DCC, to learn who DCC is and how to find their contracts. He will also cover working with DCC and the current status of Industrial Security requirements.

Where: Homeport Hotel, 3 Wadland Crescent - Lighthouse Boardroom

When: Wednesday, April 22, 2020 from 9-11 a.m.

Cost: \$60 + HST (members), \$100 + HST (non-members)

Presenter: Trevor Rogers P. Eng., FMA, PMP
